

DeFlock PSL | Camera permit records

44 locations with no matching permit located in the reviewed records

Website snapshot: October 26, 2026 | Camera inventory: October 7, 2026 | Latest records received: October 20, 2026

This exhibit preserves the website's unresolved-location map and list for submission to the meeting record. No matching permit located does **not** establish that a permit was never issued. Permit PDFs received October 20 are separate exhibits and are not reproduced here.

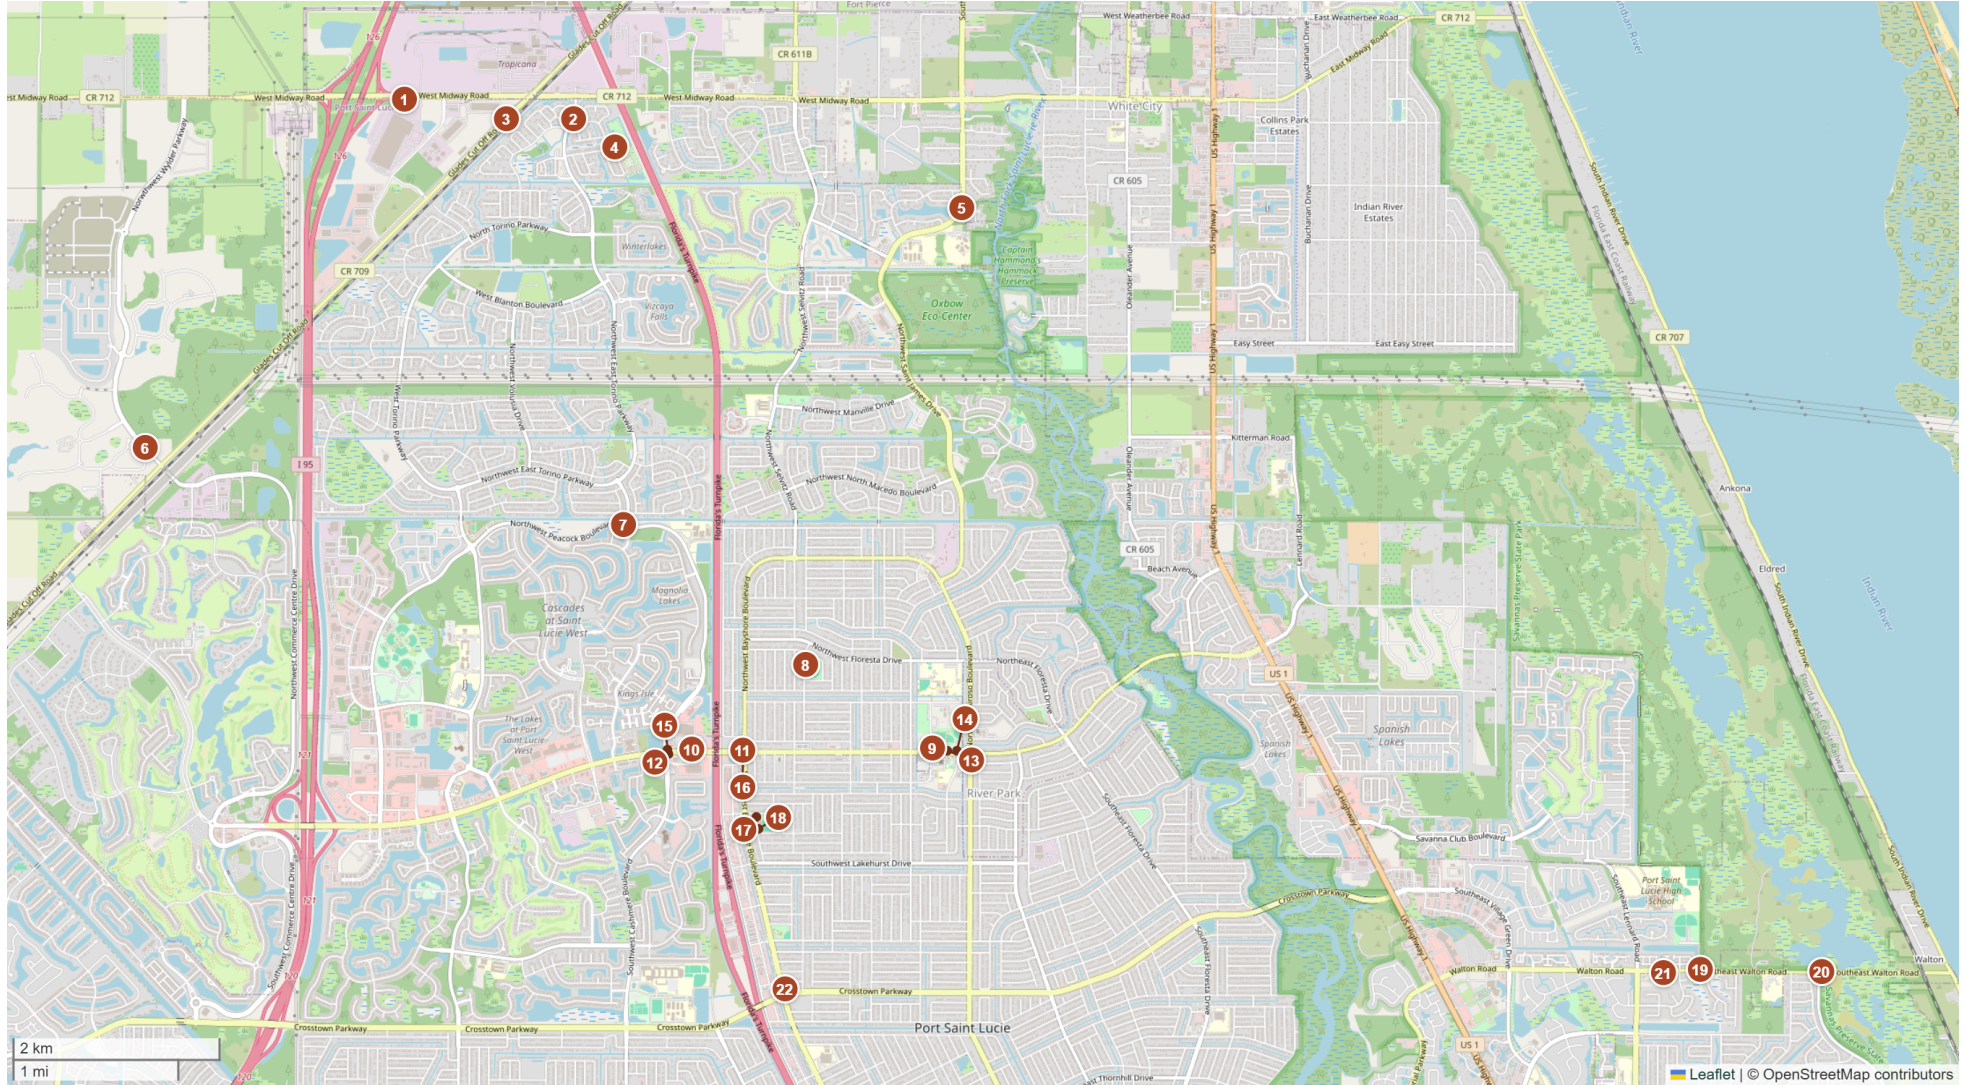

Overview: each orange point represents an unresolved OSM camera location. Close points may overlap. The next two maps separate these locations into numbered groups corresponding to the index.

Source: <https://deflockpsl.org/> | 80 indexed locations: 36 with a permit linked; 44 unresolved. Map data: OpenStreetMap contributors.

Northern group | Locations 1-22

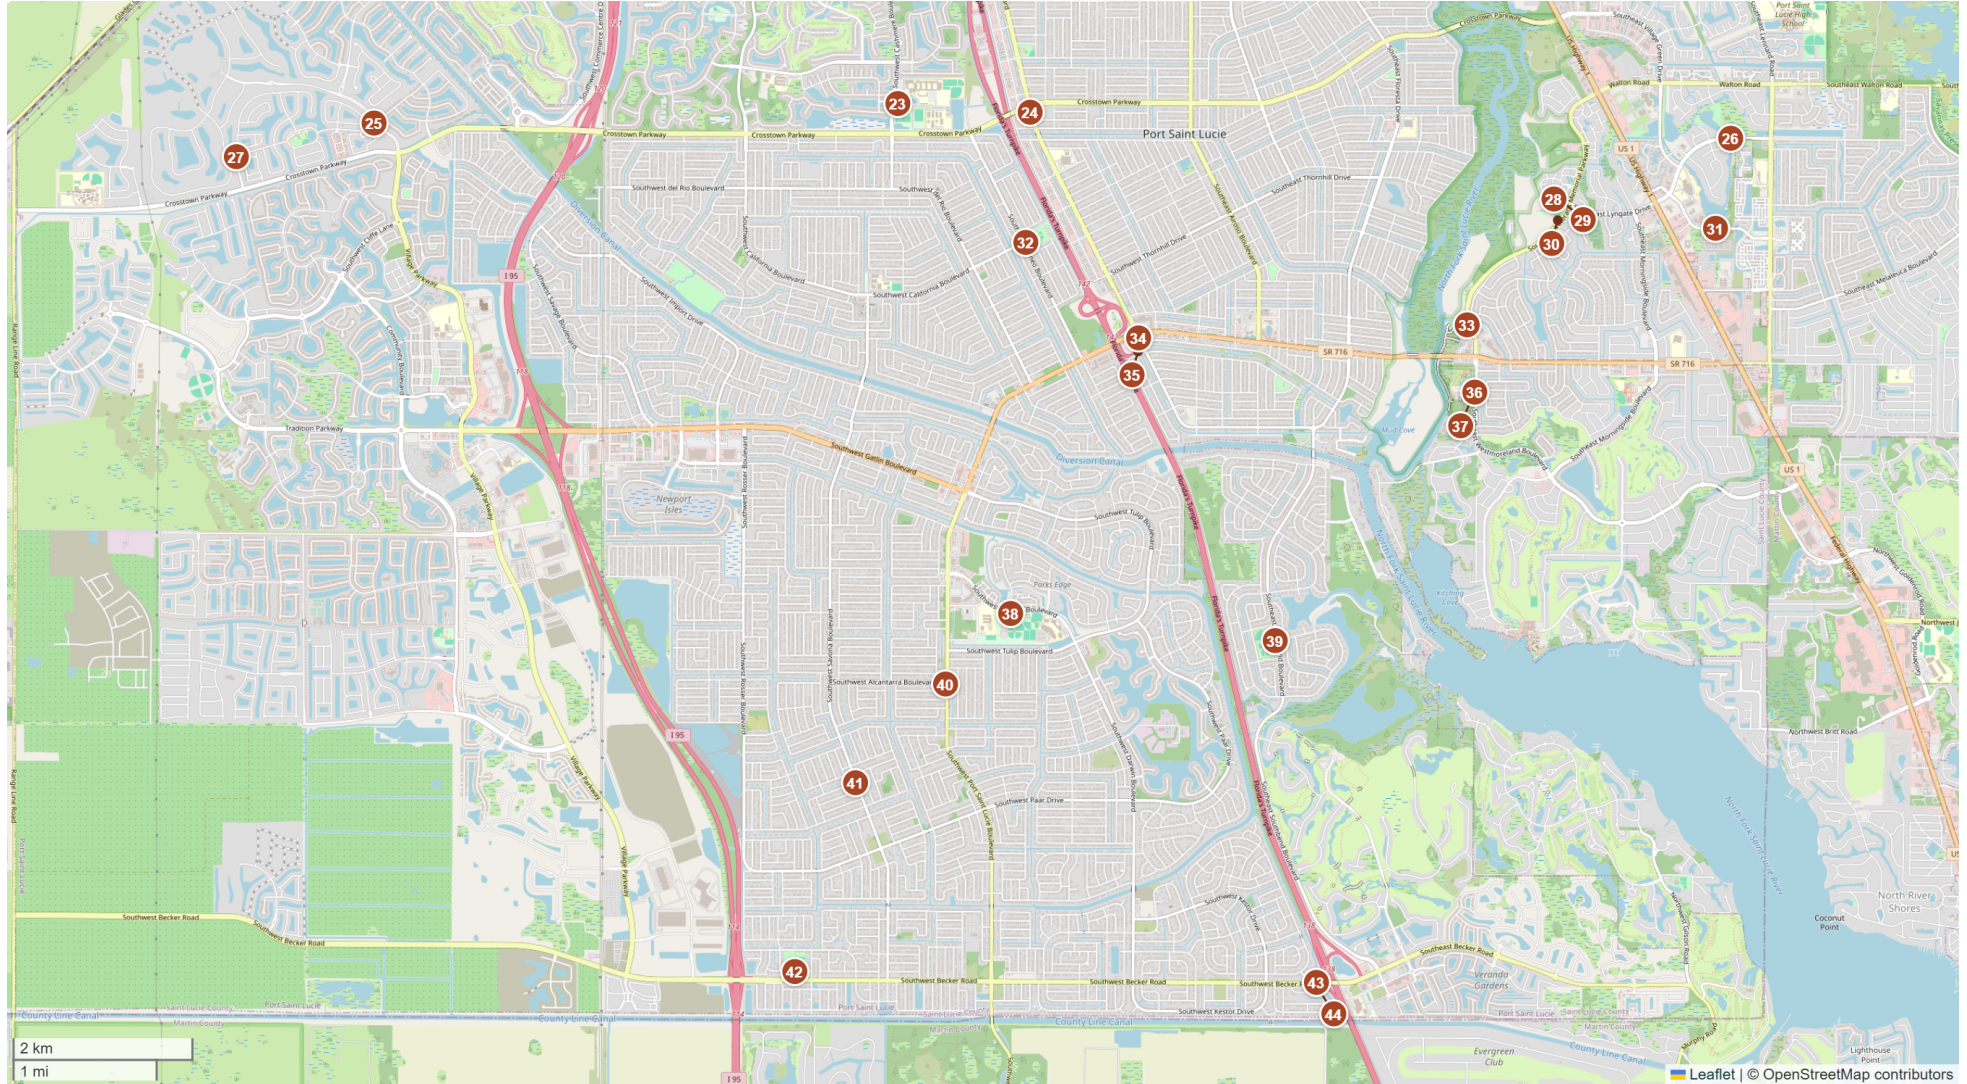

No matching permit located in the reviewed records. Numbers correspond to the location index. When a number is displaced for readability, its leader line ends at the indexed coordinate.

Coordinates are from the website's OSM-based inventory and are not a surveyed position or a determination of road/right-of-way jurisdiction. Base map: OpenStreetMap contributors.

Southern group | Locations 23-44

No matching permit located in the reviewed records. Numbers correspond to the location index. When a number is displaced for readability, its leader line ends at the indexed coordinate.

Coordinates are from the website's OSM-based inventory and are not a surveyed position or a determination of road/right-of-way jurisdiction. Base map: OpenStreetMap contributors.

Location index | 1-15 of 44

Status for every entry: **No matching permit located in the reviewed records.** Location descriptions and manufacturer labels are preserved from the website. Numbering runs north to south.
